EXPERIENCE

Senior ServiceNow Developer

Tech Solutions Inc. *January 2021 - Present*

- Engineered a custom ServiceNow application that improved ticket resolution speed by 30%.
- Collaborated with cross-functional teams to successfully migrate legacy systems to ServiceNow, enhancing overall system performance by 20%.
- Designed and Implemented RESTful APIs, facilitating seamless integrations with third-party applications.
- Enhanced user satisfaction scores by 25% through effective user training and support initiatives.
- Led efforts in automating routine ITSM processes, reducing manual workload by 40%.

ServiceNow Developer

Innovatech Solutions *June 2020 - December 2020*

- Developed client-side scripts that improved user interface responsiveness, resulting in a 15% increase in user engagement.
- Implemented ServiceNow modules that streamlined operations and reduced service delivery times by 10%.
- Participated in Agile ceremonies, contributing to sprint planning and retrospectives to enhance team performance.
- Conducted code reviews and mentored junior developers, fostering a collaborative development environment.

EDUCATION

Bachelor of Science in Computer Science

State University *August 2016 - May 2020*

Graduated with honors, focusing on software development and systems engineering.

Justin Brandon

MERN STACK DEVELOPER

✉ info@resumekraft.com

☎ 202-555-0120

📍 Chicago, Illinois, US

🌐 linkedin.com/resumekraft

SUMMARY

Highly skilled MERN Stack developer bringing X years of experience in designing and developing robust web applications. Proficient in front-end and back-end technologies, including React.js, Node.js, MongoDB, and Express.js. Strong understanding of responsive design principles and cross-browser compatibility. Proven ability to meet tight deadlines and deliver high-quality code. A collaborative team player, dedicated to ensuring seamless user experiences and designing scalable solutions.

EXPERIENCE

MERN Stack developer

Accenture Mar 2019 - Present

- Experience in developing and maintaining web applications using MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Proficient in frontend technologies such as HTML, CSS, and JavaScript
- Strong knowledge of database design, implementation, and optimization using MongoDB
- Experience in designing and developing RESTful APIs using Node.js and Express.js
- Proficient in React.js for building user interfaces and state management
- Familiarity with modern frontend build pipelines and tools
- Experience in implementing testdriven development (TDD) and writing unit tests using frameworks such as Jest or Mocha
- Ability to debug and resolve issues in existing codebase
- Strong problemsolving skills and attention to detail
- Collaborate with crossfunctional teams to define, design, and ship new features
- Conduct code reviews and provide constructive feedback for team members
- Stay updated with emerging technologies and bring new ideas to the development team
- Work in an agile development environment, attending daily standup meetings and providing updates on progress
- Ensure the application is optimized for maximum performance and scalability

FULL STACK DEVELOPER

ABOUT ME

Full Stack Developer with 5 years of experience in designing and implementing web applications. Proficient in frontend technologies such as HTML, CSS, JavaScript, and frameworks like Angular and React. Skilled in backend development using Java, Python, and frameworks including Spring and Django. Strong expertise in database management and cloud platforms. Dedicated to delivering efficient and user-friendly solutions.

EXPERIENCE

- Frontend Developer

Royallogics Infosolution

Apr 2015 - Apr 2017

 - Experience creating userfriendly web pages using HTML, CSS, and JavaScript.
 - Strong understanding of responsive design principles to optimize web pages for mobile and desktop devices.
 - Proficient in using frontend frameworks such as React, Angular, or Vue.js to develop interactive and dynamic web applications.
 - Expertise in frontend coding standards, code optimization techniques, and performance optimization to deliver fast and efficient web experiences.
 - Ability to collaborate with UX/UI designers and backend developers to implement and integrate designs and functionalities into the frontend.
 - Familiarity with version control systems such as Git to ensure code integrity and facilitate collaborative development.
 - Experience in troubleshooting and debugging frontend issues to provide timely resolutions and enhance user experience.
 - Knowledge of crossbrowser compatibility and web accessibility standards to ensure consistent and inclusive web experiences.
- Fullstack Developer

Gladhand technology

Apr 2017 - Nov 2020

 - Excellent communication skills to effectively communicate with stakeholders and clients.
 - Strong problemsolving skills and ability to work independently as well as in a team.
 - Stay uptodate with the latest trends and advancements in frontend development technologies and techniques.
 - Knowledge of crossbrowser compatibility and web accessibility standards to ensure consistent and inclusive web experiences.
 - Experience in troubleshooting and debugging frontend issues to provide timely resolutions and enhance user experience.
 - Familiarity with version control systems such as Git to ensure code integrity and facilitate collaborative development.
- Fullstack Developer

Fanatic coders PVT LTD

Nov 2020 - Present

LEONIDAS WILLIAMS

Front-End Developer

Front End Development

Thinkful

📅 2020 - 2021

📍 Seattle, WA

SKILLS

- JavaScript
- HTML
- CSS
- React
- Node.js
- Mocha/Chai
- Jest
- GIT

WORK EXPERIENCE

Junior Front-End Developer

HelloFresh

📅 June 2021 - current

📍 Remote

- Set up testing framework for team project using Mocha and Chai to test the Node API. This decreased the amount of bugs pre-deployment by over 70%.
- Worked in an agile environment with weekly stand-ups, kept track of user stories/bugs in GitHub projects, and conducted 2 hours of sprint planning and sprint retrospectives per week. This process allowed production to *increase by 45% while decreasing overall time invested by 20%*.
- Participated in pair programmed with 3 engineers, and reviewed team's code to provide additional perspective and catch previously missed errors.
- Tested React components using Jest.

Front-End Developer Apprenticeship

Blend

📅 January 2021 - June 2021

📍 Remote

- Assisted in building beautiful user interfaces for clients without compromising functionality for aesthetics.
- Implemented newly-learned front-end object-oriented programming to develop client server systems.
- Wrote unit tests in Jest. This made products 100% bug free.
- Learned and applied Agile methodologies and principles.

PROJECTS

Sickle To 'Em

Designer, Developer

📅 2021 - current

- Built a full-stack web app to allow Sickle Cell Anemia patients to keep track of 15+ medications needed for treatment.
- Used React to allow users to instantaneously update the medication list interface without reloading.
- Built custom JavaScript timer linked to Twilio API to send text reminders 5 minutes prior to take certain medications at specific times of day.
- Continued development by adding 12 physical exercise guides in accordance with physician recommendations for SCA patients.

ACHIEVEMENTS

Android Trainee Astute System Technology Pvt. Ltd. Indore

- Used Eclipse Juno to Develop 3 Apps,
- Used Integrated IAP, Interstitial Adds and Banner ads,
- Did bugs fixing in other applications.

Robotics Workshop Organised by IITB.

Attended the Workshop & learned how the IoT & embedded devices works & learned to control and manipulate the specific action in real world with C programming

Personal

- Student Placement Organization Portal
- Snake Game in C++
- Deployed Few Android Apps

Frank Tupelo

ANDROID DEVELOPER

SUMMARY

Professional with proven Experience in Android Development (JAVA), Build with highly reliable, optimised design to provide the best performance tuned Product. Besides that i had hands on Backend to Generate Mobile API's on pre-build framework (Spring-Boot, Cloud Functions with TypeScript), Kotlin, Flutter, React-Native and worked on Arduino Board. Enthusiastic about new technology and framework.

EXPERIENCE

Software Engineer Squer Products, Thane

Jun 2016 - Present

- Designed the reliable offline apps for the field force for their daily reporting task.
- Managing Play Store Account & bug fixing with play store beta testing & bug reports
- Developed more than 10 App include demo apps for the new clients.
- Development of JAVA api's for the Mobile Application
- Developed RFID card module with door unlock and reporting module for client
- Developed Firebase Cloud Function in JavaScript & TypeScript
- Recently completed A Android App with Kotlin.
- Meanwhile worked on some React-Native and flutter demo apps.
- Learned How to communicate with different teams to full-fill project requirements.

Jr. Android Developer SoftGrid Computers, Indore

Oct 2015 - Apr 2016

- Learn reliable and optimised code techniques
- Learn to implement how to implement OOP concepts
- Developed 3 Android Apps

Android and Windows Developer Strenuus Information Technology Pvt. Ltd, Indore

Jun 2015 - Aug 2015

Company's main product is a toll both system, which records the number of vehicle passed and total tax collected from them.

EDUCATION

Bachelor of Engineering (CSE) San Jose State University

Jun 2010 - May 2014

SUMMARY

With over 8 years of experience as a software developer, I specialize in C# and ASP.NET, having a proven track record in developing high-performance, scalable web services. My proudest achievement is leading a project which improved system efficiency by 20%. I'm eager to bring my strong problem-solving skills and commitment to customer service excellence to a forward-thinking development team.

EXPERIENCE

Lead Software Engineer

TechSolutions Group

03/2019 - Present

Dallas, Texas

- Designed and developed a new scalable web service in C# for real-time data processing, handling over 10,000 transactions per hour, which improved system efficiency by 20%.
- Led a cross-functional team of developers and QA analysts in a major software lifecycle overhaul, resulting in a 25% shorter development cycle.
- Managed database schema design and optimizations for MySQL and MSSQL databases, achieving a reduction in data retrieval times by up to 30%.
- Introduced RESTful API integrations for external services, boosting interconnectivity and paving the way for future expansion on cloud platforms.
- Authored and maintained detailed software documentation, ensuring best practices and enabling a 15% increase in team productivity.
- Headed the UI/UX design initiative for a B2B web portal, which directly contributed to a user satisfaction increase as measured in annual surveys.

Senior .NET Developer

Innovatech Solutions

07/2015 - 02/2019

Dallas, Texas

- Spearheaded a project that resulted in the implementation of a new software design pattern, increasing code reusability by 40%.
- Developed and launched a SOAP web services layer for legacy systems, greatly enhancing interoperability and future-proofing the application.
- Collaborated with business analysts to articulate business requirements into functional software with a 99.5% success rate in the first deployment.
- Performed rigorous testing and maintenance on critical application components, ensuring an uptime of 99.9%.
- Optimized and standardized company coding practices, which led to a measurable decrease in post-deployment bugs by 18%.

Application Developer

Global Tech Innovations

01/2012 - 06/2015

Dallas, Texas

- Developed multiple high-impact .NET applications, consistently delivering projects 15% ahead of deadlines.
- Increased database performance and scalability by implementing strategic restructuring and indexing of tables in MSSQL.
- Implemented client-requested custom modifications, which resulted in enhanced customer satisfaction rates.
- Provided 24x7 production support, successfully reducing system downtime and improving client confidence.

EDUCATION

Master of Science in Computer Science

University of Texas at Dallas

01/2014 - 01/2016

Dallas, Texas

Bachelor of Science in Software Engineering

Texas A&M University

01/2008 - 01/2012

College Station, Texas

PROJECTS

.NET Microservice Architecture

Developed a lightweight, scalable microservice using .NET Core, suited for cloud deployment scenarios. See more at [github.com/dotnet-microservice-project](#)

Custom JQuery Plugin for UI Enhancements

Created a custom jQuery plugin to simplify UI interactions in web applications. Available at [github.com/custom-jquery-plugin-ui](#)

ACHIEVEMENTS

Best Software Performance Improvement

Received an award for the most significant performance enhancement in a software module, reducing load times by 30%.

Project Leader of the Year

Named 'Project Leader of the Year' for leading the development and successful deployment of a mission-critical .NET application.

Business Impact Through Innovation

Implemented a feature that improved customer retention by 15% by enhancing the end-user experience through innovative UI design.

Excellence in Customer Support

Provided exemplary Tier 3 support, recognized by management for maintaining highest customer satisfaction rates.

SKILLS

C#	ASP.NET	.NET Framework	SQL
JavaScript		jQuery	

COURSES

Certified .NET Developer

An intensive certification course focused on advanced C# and .NET development skills, offered by Microsoft.

Advanced SQL Database Management

Hands-on training in complex SQL queries and database optimization techniques from Oracle University.

PASSIONS

Technological Innovations in Energy

I am deeply interested in the integration of technology and energy efficiency, striving for sustainable advances in power usage.
